
Assessment of glycemic control among diabetic residents in nursing homes.

Diabetes Res Clin Pract. 2012 Jun;96(3):e80-e83.

Basso A, Peruzzi P, Carollo MC, Improta G, Fedeli U.

We assessed hemoglobin A1c (HbA1c) among 88 diabetic residents in three Italian nursing homes, and compared figures with current guidelines and reports in the literature. Mean HbA1c was 6.5%; this paper from Southern Europe confirms recent findings in nursing homes on HbA1c values well below recommended targets.
