Abstract

The prevalence of Type 1 Diabetes (T1D) in the Veneto Region (Italy) in the 2015-2020 years was 152.5/100,000 subjects and the incidence 19.7/100,000 person-years. Accordingly, Veneto Region can be defined as a high-risk area for pediatric T1D.

Keywords: Adolescents; Children; Incidence; Prevalence; Type 1 Diabetes.
